Election Policy

1. Purpose

The membership must elect the President, all Vice Presidents and 10 councillors. (Engineers and Geoscientists Act section 6 and Bylaw 3(i))

Each year, there must be an election for the President, the Vice-President(s) and five councillors. If permitted under the Act, Council may, from time to time, determine the manner(s) of balloting, including on-line voting instead of or in addition to letter ballot, in accordance with this Policy and may contract with third-party service providers to administer the election process and provide the results to the Registrar. Otherwise, the voting shall be by letter ballot in accordance with this Policy and the Act. (Act sections 6 and 9).

The Registrar is the Chief Electoral Officer and is responsible for the conduct of the election.

 - ii. Return of ballot will be marked in the member's record to ensure only one ballot is counted per member.
 - iii. Outer envelopes with valid markings will be opened after the close of voting and after it has been determined that only one ballot has been received from that member.
