

The Association of
PROFESSIONAL ENGINEERS AND GEOSCIENTISTS
of the Province of British Columbia

LIMITED LICENCE

Henricus Josef Peter Verstraaten has signed an undertaking and is therefore authorized to engage in the practice of Professional Engineering in the Province of British Columbia, within the limited scope as specified hereunder:

Professional engineering within the civil discipline, limited to: provision of consultative and advisory services, pre-design and design services, general engineering services during construction, and project management services, all limited to the provision of municipal type of infrastructure, designed and constructed in accordance with standard municipal requirements.

With the following limitations:

1. The detailed design of urban and rural roads, potable water distribution systems, sanitary sewer collection systems and stormwater management systems, all in accordance with standard design criteria commonly prescribed in typical municipal subdivision control bylaws, in accordance with standard municipal requirements for on-site development, or similar standard design requirements for on-site development, or similar standard design requirements issued by the approving authority.
2. Conceptual design and performance requirements for sanitary pump stations, and small (less than 5,000 gpd) on-site package type treatment facilities, as necessary for the provision of detailed design drawings and specifications typically provided by the appropriate equipment suppliers, all in accordance with standard municipal requirements.
3. Issuance of technical specifications and contract documents as necessary for the tendering and construction of the above described infrastructure.
4. Administration of construction contracts for the above described infrastructure, including monitoring of construction for adherence to the contract documents, certification and payment for the work performed, and certification of the Record Drawings.
5. All work undertaken shall be strictly within the civil municipal discipline and shall be limited to the provision of municipal type infrastructure designed and constructed in accordance with standard municipal requirements.
