

The Association of  
**PROFESSIONAL ENGINEERS AND GEOSCIENTISTS**  
of the Province of British Columbia

## **LIMITED LICENCE**

**William John Williams** has signed an undertaking and is therefore authorized to engage in the practice of Professional Engineering in the Province of British Columbia, within the limited scope as specified hereunder:

**To design traffic signal timing plans including phasing, pre-emption, network coordination and advance warning. To provide the design and field review of traffic signals including intersection layout and lane assignments, traffic signal components, and roadway marking and signage related to traffic signals and excluding the electrical design, specification and electrical field review. To provide infrastructure management of traffic signals including maintenance management, asset management of traffic signal components, and evaluating new products for implementation. To develop policy and procedure related to traffic signal timing plans, traffic signal design, and infrastructure management.**
