

The Association of  
**PROFESSIONAL ENGINEERS AND GEOSCIENTISTS**  
of the Province of British Columbia

## LIMITED LICENCE

**Timothy Henry** has signed an undertaking and is therefore authorized to engage in the practice of Professional Engineering in the Province of British Columbia, within the limited scope as specified hereunder:

**Infrastructure condition assessment, rehabilitation and management as it relates to deterioration, cathodic protection, coatings and linings.**

**Inclusions:**

- A. General deterioration assessment and analysis of structures or objects that are in atmospheric, immersion, contained or buried environments.**
- B. Design, specification, evaluation and installation of cathodic protection systems or components of a cathodic protection system for structures or objects that are in atmospheric, immersion, contained or buried environments.**
- C. Design, specification and evaluation of protective coatings, linings or other infrastructure rehabilitation as structural and non-structural components.**
- D. Manage consultants or projects providing infrastructure works and services.**
- E. Perform technical analysis, including scope, operating conditions, technical merit, risk analysis and fiscal feasibility.**
- F. Issue technical specifications and contract documents for tendering and construction**
- G. Training related to this scope of practice.**

**Granted August 25, 2010**

**(See Over)**

**Exclusions:**

- 1) Design, specification, evaluation and installation of AC electrical components.**
- 2) Design, specification, evaluation, and installation of AC interference mitigation systems.**
- 3) Design, specification, evaluation and installations of anodic protection systems**
- 4) Assessment and management of fatigue and creep deterioration.**
- 5) Assessment of stress corrosion cracking, microbiological induced corrosion, hydrogen embrittlement and de-alloying**
- 6) Specification and evaluation of chemical inhibition.**
