

The Association of
PROFESSIONAL ENGINEERS AND GEOSCIENTISTS
of the Province of British Columbia

LIMITED LICENCE

David Record has signed an undertaking and is therefore authorized to engage in the practice of Professional Engineering in the Province of British Columbia, within the limited scope as specified hereunder:

Within the professional engineering discipline of mechanical engineering, limited to natural gas and propane distribution facilities in accordance with existing codes and standards:

- 1. Mechanical design of natural gas and propane facilities for the pressure control and distribution of natural gas and propane within the boundaries of pressure regulating and metering stations.**
- 2. Issuing technical specifications permit applications and contract documents for tendering and construction for facilities described in (1).**
- 3. Project managing, reporting on and supervising the construction of the defined works for facilities described in (1).**
- 4. All work must comply with applicable codes and standards and be in accordance with accepted engineering practice.**

Exclusions:

Design of pressure vessels governed by the Boiler and Pressure Vessel Safety Act, gas turbines or gas compressors and fire protection systems.
