

The Association of  
**PROFESSIONAL ENGINEERS AND GEOSCIENTISTS**  
of the Province of British Columbia

## **LIMITED LICENCE**

**Shane Kronebusch** has signed an undertaking and is therefore authorized to engage in the practice of Professional Engineering in the Province of British Columbia, within the limited scope as specified hereunder:

Within the practice of Electrical Engineering:

Perform design engineering functions, data modeling simulations, testing and commissioning activities associated with the development and implementation of electrical power generation protection and control systems involving electrical generator machines, synchronous condensers, governors, excitation systems, power system stabilizers and relevant station service equipment.

Limitations:

1. Protection and control equipment testing of station equipment not related to electrical generator equipment protection like transmission lines, distribution lines, transformers and any other station equipment.
2. Protection and control equipment testing of steam turbines and boilers.
3. Protection and control equipment testing of wind turbines.

**Granted, January 4, 2011**

**(See Over)**

Exclusions:

1. Protection and Control equipment design engineering of station equipment not related to electrical generator equipment protection like transmission lines, distribution lines, transformers and any other station equipment.
2. Protection and control equipment design engineering of steam turbines and boilers.
3. Protection and control equipment design engineering of wind turbines.
