Coordinator*

*DEP is a Division of
Environmental Engineers and
Environmental Geoscientists
within the APEGBC. Our
mandate is to promote the
fields of environmental
engineering and geoscience
and elevate the standards of
practice of our membership.*

Reminder – APEGBC AGM and Conference, DEP Stream, Thursday October 16, 2008.

This is a reminder notice that the Division of Environmental Professionals (DEP) will be hosting a day of Professional Development (PD) seminars at the APEGBC AGM and Conference on Thursday October 16, 2008 in Kelowna, BC. Below are the PD seminar topics:

BC BROWNFIELDS RENEWAL STRATEGY UPDATE

with Scott Bailey, Ministry of Agriculture and Lands.

The presenter will provide an overview of the Brownfields Renewal Strategy and detail areas relevant to APEGBC members.

SUSTAINABILITY IN REMEDIATION: ANALYSIS IN PETROLEUM HYDROCARBON REMEDIATION

with Lesley Reid, P.Eng., Jacques Whitford Ltd.

This interactive workshop will evaluate the direct and indirect environmental impacts of remediation techniques.

IS GREEN ALWAYS CLEAN? TRADEOFFS BETWEEN CLIMATE CHANGE AND AIR QUALITY

with Kathy Preston, P.Eng., of RWDI Air Inc.

This presentation will ask if, in the rush to lower our greenhouse gas emissions, we are ignoring air quality. Also included will be a survey of other topical air quality issues in BC.

BC MINISTRY OF ENVIRONMENT REGULATORY UPDATE

with Mike MacFarlane and Alan McCammon, P.Geo., of the Ministry of Environment.

The Ministry of Environment's Land Remediation Section has been working on a number of ongoing policy development initiatives. This session will provide APEGBC members with an update on the progress of these initiatives.

DEP AGM on Thursday October 16, 2008 from 5:30pm to 7pm at the Grand Lakeside Resort, Kelowna, BC

The AGM will follow the "Environmental Engineering and Geoscience" professional development events at the APEGBC Conference. The AGM will include a review of the mandate and recent history of the DEP, the treasurer's report, elections of executive members, modifications to

the Terms of Reference, and brainstorming of ideas for the upcoming year. Nominations from the floor for the remaining Executive positions will also be taken.

All DEP members are encouraged to attend to find out more about the Division and provide valuable input to their division's executive.

Call for Volunteers

The division is actively looking for volunteers to help with events, communications, and outreach. Please email dep@apeg.bc.ca to find out about volunteer opportunities or provide your ideas to the DEP, including sections you'd like to see carried in this newsletter.

Logo Submission Contest - Extended

**Think you can top this logo?
If so, the Division would like your design ideas!**

Due to issues with DEP email service, the submissions period for our logo contest has been extended until October 31, 2008. Send your submissions to DEP through email (bbrassington@golder.com) and five finalists will be selected by the DEP Executive.

All five finalists will have their membership fees waived for the upcoming 2009 year and the winner will get the bragging rights as well!

Logos should incorporate:

- the division acronym and name: 'DEP' and 'Division of Environmental Professionals';
- use symbolism to show a connection between DEP and the environment; and,
- include one or more of the follow: air, water, life and earth.

So prepare your logo ideas, scan them and send them to us at bbrassington@golder.com.

Membership in DEP

Become a member today by registering at www.apeg.bc.ca/event – membership is free for the remainder of the 2008 season.
