

Organization Overview

The City of Port Moody is a growing community of 34,000 residents located 30 minutes east of downtown Vancouver at the head of the Burrard Inlet and just steps from seaside parks, mountain trails and lakes. To achieve our mission of providing services that enhance the quality of life for all of our residents, we are looking for motivated individuals to complement our team.

Title Infrastructure Engineering Technologist, TFT

Job ID 12-08

Job Status Temporary Full-time

Employment Group CUPE 825 (Inside)

of Vacancies One (1)

Posting Period January 20 - February 5, 2012

Position Overview The City of Port Moody is seeking a motivated individual for the position of Infrastructure Engineering Technologist. This position is temporary full-time.

Responsibilities This position will be responsible for assisting with development and administration of guidelines and procedures for effective management of city infrastructure and determine engineering infrastructure requirements to accommodate future growth. Responsibilities also include: updating and maintaining city infrastructure asset information; development and maintenance of water, sanitary and storm utility models; providing assistance and direction to a wide variety of internal and external contacts; liaising with Developers, Contractors, Operations and the general public; and application of bylaws and specifications related to development projects including review and processing of solid waste engineering designs and cost estimates, compiling deficiency lists and conducting field inspections.

Requirements The ideal candidate will be self-motivated with strong problem solving skills. Attention to detail and high quality work standards are vital to this position.

Please note that employment at the City of Port Moody is subject to receipt of a satisfactory police records search and driver's abstract. **To be considered for this position please submit your resume by applying online at: www.portmoody.ca/jobs.**
