

## **Municipal Engineer - Calgary**

Scheffer Andrew Ltd. is a medium sized engineering and planning consulting firm, which has operated in Western Canada, primarily Alberta, for more than thirty four years. We currently have four offices in Alberta with more than sixty employees. Our work focuses on municipal, land development and transportation engineering.

This Municipal Engineering position reports to, and works under the direct supervision of the Principals of the company.

Duties of this position will include, and are not limited to:

- Managing projects through to completion, relying on extensive technical knowledge and experience
- Planning, organizing, designing and directing resources to best serve the needs of our clients
- Supervising, mentoring, and leading project teams for both engineering and multi-discipline projects
- Delivering projects within established timeframes and budgets

The ideal candidate will have:

- A degree in Engineering from a recognized school with a minimum of 5-10 years of civil engineering experience
- Professional engineering designation, immediately qualified to be registered with APEGGA
- Proficient in municipal, transportation and/or land development engineering design, including design of municipal and related infrastructure including sewage, water, roads, storm water, drainage, familiarly with approval process in City of Calgary or any other similar municipality
- Experience in leading and dealing directly with design teams, clients and approval agencies
- Experience in construction and contract administration
- Ability to build relationships with new and existing clients
- Exceptional leadership and communication abilities
