

Dillon is a well established, employee-owned professional consulting firm operating across Canada and internationally. We provide a wide range of consulting and design services related to the infrastructure, real estate, resource, industrial and government sectors in Canada and abroad. We are currently seeking candidates for the position of **Waste Management Project Manager** at our **Vancouver Office**.

### **Responsibilities:**

- Management of solid waste projects related to waste management master planning, facility evaluation, and facility design and operations
- Leadership and technical direction of multidisciplinary project teams
- Development of public and private sector client relationships and new business opportunities
- Contribution to technical and professional leadership within the firm
- Input to the career development of more junior staff, including technical direction, training recommendations, coaching and mentoring
- Contributions to Dillon's corporate profile through active participation in professional associations and committees
- Business travel upon request

### **Qualifications:**

- A degree in civil engineering
- Licensed to practice as a professional engineer in British Columbia or eligible to be licensed within six months
- At least 10 years' experience in solid waste management engineering for municipalities and/or industry

### **Experience:**

- Demonstrated abilities in the management of multidisciplinary project teams, including engineers, planners and environmental scientists
- Indepth experience in:
  - functional and detailed design of solid waste management facilities, including landfills and transfer stations
  - waste management program development
  - infrastructure assessment studies
  - tendering and construction contract administration
- Proven skills in client relationship management and business development
- Indepth knowledge of applicable waste management legislation including environmental assessment requirements and the approvals application process
- Proficiency in the preparation of proposals for engineering services and client presentations
- Strong communication, report writing, organization and interpersonal skills

Dillon offers competitive salaries, health benefits and a generous retirement savings plan.
