

EIT/Junior/Intermediate Integrity Engineers

Calgary

Kinder Morgan Canada Inc. has created an environment where original thinking and the broad application of experience are encouraged. We seek candidates who wish to expand their horizons, while sharing our commitment to pipeline safety, environmental responsibility and organizational excellence. We are poised for a future dominated by expansion, activity and excitement.

Opportunities exist for EIT/Junior/Intermediate Engineers in both our Operations Engineering and Integrity Programs & Risk Engineering groups. Specific responsibilities will vary depending on the exact position you are best suited for. As a EIT/Junior/Intermediate Engineer, you will be presented with the opportunity to be involved with the daily operational, integrity and maintenance activities associated with our pipeline system. Although your exact tasks will be determined by the individual roles available and the best fit with your qualifications and our needs, you will play an integral role in the maintenance and development of our Integrity Management Programs, and will use your expertise in the development of standards, procedures and training programs. As part of the Operations Engineering group you will have a leading role in the anomaly assessment (dig) program. As part of the Integrity Programs & Risk Engineering group, you'll support ongoing development of the facilities and pipeline risk assessment programs, system operating limits, Integrity Program documents and related projects assigned by senior integrity engineers.

You should be a skilled and highly motivated engineer with at least one to five years of experience. Preference will be given to those with a mechanical, civil, electrical, petroleum or related discipline. You are registered or eligible for registration with APEGGA.
