- superior benefits
- employee share ownership plan for all employees
- Live Better wellness program

*Cameco values diversity. In keeping with this principle and our employment equity goals, we particularly encourage qualified applicants from the designated equity groups to apply.*

*To explore this career opportunity, please visit [www.cameco.com/careers](http://www.cameco.com/careers). Deadline for applications is **February 29, 2012**. Please quote competition number **C11-260**.*

#### POSITION AND RESPONSIBILITIES

You will provide mechanical engineering oversight on major projects executed within Cameco and by outside consulting companies providing engineering services to Cameco.

The oversight role consists of ensuring engineering work is done in accordance with Cameco's processes, procedures, standards and regulatory requirements. You will also be responsible for developing and integrating mechanical design standards for use on all major projects.

#### EDUCATION AND QUALIFICATIONS

##### Requirements of the position:

- Bachelor's degree in mechanical engineering
- Four to eight years of relevant work experience
- Equivalent combination of education and work experience considered
- You must be eligible for registrations with APEGS

##### Assets:

- Experience with piping, equipment design and layout, building services, HVAC and materials handling
- Oversight experience in a projects environment

Applicants will be considered for a level within the job progression, which is appropriate to their qualifications.
