

COHOS EVAMY

i n t e g r a t e d e s i g n™

Cohos Evamy integratedesign™ is a fully integrated architectural, engineering, interior design, urban design and planning firm, with a special culture and spirit. Employing over 400 people, Cohos Evamy is committed to sustainability and excellence in design and client service. We have an exciting opportunity for a Structural Engineer to join Edmonton studio

Structural Engineer Edmonton

About the Role

Do you thrive when working with architects, interior designers and additional engineering disciplines to create truly integrated and sustainable design solutions? As a Structural Engineer you would provide direction and leadership to engineers and technologists. This role also involves fostering creativity in design, managing projects and teams, championing Cohos Evamy's quality assurance program, supporting business development initiatives, and mentoring staff.

Qualifications

If you have 8-15 years of experience working on institutional or commercial; a Masters or Doctorate in structural engineering; provincial registration as a Professional Engineer, and proven experience in the building design field managing complex projects in a multi-disciplinary environment, we would like to hear from you. Excellent oral and written communication skills are essential to success.

Why Work for Cohos Evamy?

- Cohos Evamy offers competitive compensation, benefits, and first class training and development;
- Cohos Evamy supports the pursuit of advanced degrees in Structural Engineering;
- At Cohos Evamy there is the opportunity to work on bridges and buildings;
- Opportunities exist for growth and advancement; and
- Cohos Evamy is an award-winning company that is committed to sustainable, integratedesign™.
