

CAREER OPPORTUNITIES

**Project Managers
Geologists
Junior Geologists/Geotechnicians
Core Cutters**

Elgin Mining is a Canadian based gold company focused on the exploration and development of the Lupin gold mine and Ulu gold project, both located in Nunavut. The Company's shares are listed on the Toronto Venture Exchange under the symbol ELG. Further information about Elgin Mining can be found at www.elginmining.com.

We seek qualified, safety-committed applicants to join our exploration team at our Lupin and Ulu projects. All positions are site-based, with a fly in/fly out rotation. Elgin Mining offers competitive compensation packages. Resumes should be submitted by email to hr@elginmining.com, along with a covering letter specifying the position for which you are applying and detailing your relevant qualifications.

Project Managers

As a Project Manager, reporting to the Exploration Manager, you will be responsible for the generation, implementation, and supervision of core drilling and other surface exploration activities. You will report and interpret results, and will make recommendations for continuing work. You will manage and mentor staff and ensure that all work is safely performed to consistently high technical and environmental standards. Your position will include site administrative tasks and budget tracking.

You will be a graduate geologist with over 10 years of experience in exploration on various types of gold deposits.

Geologists

As a Geologist, reporting to the Project Manager, you will be responsible for core rig supervision, core logging or field geology. You will assist with geological interpretation

You will be a graduate geologist with over 2 years of experience in exploration fieldwork and drilling campaigns.

Junior Geologist/Geotechnician

As a Junior Geologist/Geotechnician, working with the geologist, you will be responsible for core preparation tasks or field geology.

You will be recent graduate geologist, or a geotechnician, with relevant experience.

Core Cutter

As a Core Cutter, working with the geological crew, you will handle core boxes, and saw and sample core.

You will have relevant experience with various types of splitting equipment.

We thank you in advance for your interest. Only those applicants selected for an interview will be contacted.
