Regularly ranked as one of the best companies to work for

At Golder Associates, we strive to be the most respected global group specializing in ground engineering and environmental services. Employee-owned since our formation in 1960, we have created a unique culture with pride in ownership, resulting in long-term organizational stability. Our professionals take the time to build an understanding of our clients' needs and of the specific environments in which they operate. Golder has experienced steady growth in the number of people we employ and our technical capabilities. We now employ over 7,000 people who operate from more than 160 offices across Africa, Asia, Australia, Europe, North America and South America.

Position

The **Greater Vancouver (Burnaby) Office** of Golder Associates is seeking an **Intermediate Rock Mechanics Engineer** to support our growing Mining Rock Mechanics Group. At Golder Associates, we take pride in our ability to offer challenging roles and a multitude of opportunities for international exposure.

Responsibilities

The suitable candidate will:

- Apply rock mechanics principles to surface and underground mine design problems ranging from basic applications to state of the art design;
- Be a self starter and be able to take ownership of project work using their technical experience;
- Demonstrate critical analytical and reporting skills.

Qualifications

The successful candidate will possess the following qualifications and skills:

- An undergraduate degree in Geological, Civil, or Mining engineering;
- Applicants should have a minimum 7 years experience;
- Strong people skills and an ability to work in a team environment;
- Ability to train and mentor more junior engineering staff;
- Willingness to travel, both nationally and internationally, thus candidates should be able to adapt to challenging conditions;
- Strong ability to write well organized reports;
- Knowledge and experience in advanced numerical analysis an asset;
- Practical experience in mining ground control, preferably with exposure to several mining methods;

- Working outside of standard office hours will also be required from time to time.

Interested applicants are encouraged to apply on-line at www.golder.com in the Career/Canada section. No phone calls please, only those candidates whose background closely matches the opportunity will be contacted for an interview.
