Working within a team of professional engineers, the Highway and Roadside Planning Engineer is works with consultants on the comprehensive, timely and cost effective completion of short and long range major functional planning and location studies on provincial highways

Specific duties include:

- Participating in the consultant selection and review for functional planning and location studies work;
- Review and provide technical advice regarding development applications including area structure plans, traffic impact assessments, utility proposals and other statutory plans from a highway authority perspective;
- Project management including preparing terms of references, reviewing project documentation, participating on Technical Review Committees and overseeing the consultants throughout the project;
- Public liaison representing the Department at public meetings, and one-on-one meetings with other government agencies.

Being able to participate on a project team is essential. You must possess strong communication skills, both written and verbal, along with excellent interpersonal abilities and negotiation skills to present proposed plans to the public and department executive. A high degree of problem solving and decision making skills are essential with a commitment to service excellence. **Salary: \$2,772.42 - \$3,838.63 bi-weekly (\$72,360 - \$100,188 annually). Closing Date: January 15, 2012. Job ID #1008643**

**Qualifications:** B.Sc. Civil Engineering plus 5 years of directly related experience in transportation or highway planning. Additional related education will be considered in lieu of experience. Experience with Highway Capacity Manual Software and Synchro/SimTraffic is an asset. Preference will be given to candidates with related planning experience in a public service environment.

Eligibility for membership in APEGGA is required. (P.Eng or Engineering-in-Training (EIT) designation from a recognized provincial or territorial professional engineering association is required.) Please include your registration # from the association for your designation. Equivalencies considered.

Candidates with lesser experience may be considered at a lower classification and salary level. This competition may be used to fill future vacancies. Travel is required in this position so candidates must possess a valid driver's license.
