

The Vancouver Airport Authority is a community-based, not-for-profit organization that manages Vancouver International Airport (YVR). As Canada's second busiest airport, YVR served 16.8 million passengers in 2010, facilitated 293,877 take-offs and landings and handled more than 228,000 tonnes of cargo. As one of BC's top employers for the fifth year in a row, we are committed to creating an airport that British Columbia can be proud of: a premier global gateway, local economic generator and community contributor.

Project Engineers – Engineering Projects Department Permanent Full-time

The Vancouver Airport Authority has openings for two permanent, full-time Project Engineers in the Engineering Projects Department. Reporting to the Manager, Airside Engineering Projects, the successful candidates will be responsible for the implementation and management of single and/or multiple construction projects.

Key responsibilities include:

- Managing a program of assigned projects focusing on managing project requirements, scope, budget, schedule and quality of work
- Preparing and delivering on implementation plans
- Managing consultant design teams to adhere to scope, schedule and budget
- Leading the preparation of Request for Proposal and Tender documents including scope of work definition, technical requirements and schedule constraints
- Evaluating and providing recommendations for tenders and contracts
- Providing leadership in the areas of construction safety and environment
- Maintaining and managing project budgets including forecasting costs and risk management
- Liaising with internal Airport Authority departments and external stakeholders throughout the project

Key qualifications include:

- Completion of a university degree in Electrical, Civil or Mechanical Engineering; preference will be given to candidates with degrees in Electrical and/or Civil Engineering
- Three to five years' work experience in the design, construction or consulting industry
- Registration as a P.Eng. or EIT with APEGBC (or eligible for registration in BC)
- Knowledge of construction industry practices and standards with an emphasis on civil and/or electrical projects is an asset
- Demonstrated project management skills including project planning, budgeting, scheduling, organizational, coordination, negotiation and cost control
- Proficiency in word processing, spread sheets, databases and project scheduling software (MS Project)
- Excellent interpersonal, written and oral communication skills; experience chairing meetings and effective presentation skills would be an asset
- Proven leadership experience with strong people and time management skills
- Knowledge of or experience with airport operations would be an asset
- Sound knowledge of contract law and contract administration process
- Valid Class 5 driver's license
- Must be able to obtain Transport Canada security clearance

This position is open to Airport Authority employees and external candidates. Previous relevant job performance will be taken into consideration for all candidates that apply for this position.

We are committed to employment equity and welcome applications from everyone, including women, aboriginal peoples, persons with disabilities and members of visible minorities.

Application deadline: February 6, 2012
