

Asset Engineer

Engineering & Related 2

Alberta Transportation, Edson. The North Central Region currently has an Asset Engineer position awaiting you! With Alberta Transportation, you can engage in a fulfilling career with diverse room to grow, both professionally and personally.

Reporting to the Operations Manager, this position will provide comprehensive highway asset engineering for the district, addressing existing and future asset needs through ongoing liaison with the Regional Infrastructure section. This position will develop sound engineering input for the regional priority lists and maintain the district's portion of these lists. The position will represent the district on functional planning initiatives and will take the lead on various operational assessments. The position will also fill the project administrator role on engineering consultant agreements and construction contracts which include highway illumination, signalization, geotechnical construction and pavement preservation/rehabilitation. The position will also assist the Operations Manager with administration of the Highway Maintenance Contract, particularly in the area of long term planning for highway asset management. **Salary: \$2,772.42 - \$3,838.63 bi-weekly (\$72,360 - \$100,188 per annum). Closing Date: February 7, 2012. Job ID #1009191**

Qualifications: A related engineering degree coupled with 5 years related experience in highway maintenance or construction environment. A Civil Engineering Degree is preferred. Experience with contract administration and monitoring would be considered an asset. Additional related education will be considered in lieu of experience.

This competition will be used to fill a number of current and future vacancies in various ministries throughout the Government of Alberta.

Membership in APEGGA is required. (P.Eng designation from a recognized provincial or territorial professional engineering association is required.) Please include your registration # from the association for your designation.

- Travel is required in this position so candidates must possess a valid driver's license.
- Candidates with lesser experience may be considered at a lower classification and salary level. Engineer-in-Training (EIT) designation from a recognized Provincial or Territorial Professional Engineering Association is required. Please include your registration # from the association.
- Additional related education will be considered in lieu of experience.
- Relocation expenses will be discussed with the successful candidates.
