

QUALITY ASSURANCE SPECIALIST

Mustang Survival is a leading supplier of survival apparel solutions to the most demanding recreational, professional and military users. We are looking for a Quality Assurance Specialist to join our dynamic and inspired Research & Development team.

Nestled between the mountains and the coast, our head office in Burnaby, BC combines a progressive open-office work environment with a cutting edge 34,000 sq ft lean modular manufacturing facility. Our in-house prototyping lab and test pool allow for immediate design realization and testing. Manufacturing partners in Asia and our own USA factory provide corporate diversity, strength, and great opportunity for the successful applicant to rapidly develop and apply their skills and experience in a dynamic and exciting work environment.

As a Quality Assurance Specialist, you will report to the Manager, Configuration and Compliance. The incumbent will design, implement, and execute world-class Compliance Management processes, systems and tools, ensuring the successful design and production of critical life-saving equipment used by the world's most demanding customers (USAF, US Navy, Canadian DND, USCG, NASA, commercial fisherman, etc). You will ensure that the Compliance Management System is uniformly applied and continuously improved upon at all design and manufacturing locations.

Your primary duties will include:

- Supporting the development of a new Compliance Management System (CMS)
- Performing Quality Engineering tasks (i.e. Failure/Root Cause Analysis, Design Of Experiments, Testing, Specification of Conformance/Validation Requirements, etc)
- Champion the Design and Deployment of an improved Quality Documentation Library (i.e. updated Procedures, Forms, Work Instructions, Records etc)
- Supplier Quality Control
- Leading/Supporting resolution of high-level NCRs, CARs & Customer Complaints
- Providing Project, RFP & Contract Support
- Leading and Improving our Audit program (both Internal & External)

You possess a Bachelor's Degree in Engineering or Science, Technical Diploma in QA, or equivalent education and experience in a related field, supplemented by a minimum of 3 years experience in Quality Assurance, preferably in a manufacturing environment. An ASQ CQE certification would be an asset.

In addition, you should possess the following skills:

- Excellent communication and interpersonal skills.
- Ability to lead and influence while working in a cross-functional team environment.
- Ability to read, understand and interpret technical specifications & drawings, and standards & regulations.
- Ability to work under pressure of multiple deadlines within a continuously changing environment.
- Knowledge of the ISO9001 quality standard and quality management systems is preferred.
- Ability to apply knowledge of statistical techniques and process control principles within a multi-source manufacturing and supply environment.
- Strong mechanical ability (hands-on skill)
- Knowledge of the setup and implementation of testing protocols, and the specification of suitable test equipment.
- Good command of the English Language, written and verbal.
- Ability to prepare informative, well-articulated, concise technical reports and presentations.

Mustang Survival offers a competitive salary and benefits package, a great working environment, as well as great opportunity for personal and professional growth.

For a detailed description of this job posting and to submit your application online, please visit: www.mustangsurvival.com/careers. Deadline for submission is January 20, 2012.

Thank you for your interest in working at Mustang Survival, however, only those qualified will be contacted.
