Regularly ranked as one of the best companies to work for

At Golder Associates, we strive to be the most respected global group specializing in ground engineering and environmental services. Employee-owned since our formation in 1960, we have created a unique culture with pride in ownership, resulting in long-term organizational stability. Our professionals take the time to build an understanding of our clients' needs and of the specific environments in which they operate. Golder has experienced steady growth in the number of people we employ and our technical capabilities. We now employ over 7,000 people who operate from more than 160 offices across Africa, Asia, Australia, Europe, North America and South America.

Position

Golder Associates' Mining Division provides surface and underground engineering to mines throughout Canada and Internationally. As a result of continued growth, the Mining Division of our Burnaby Office has an opening for an Intermediate Civil/Geotechnical Tailings Engineer.

Responsibilities

The successful candidate will:

- Provide geotechnical engineering services with respect to mine waste management and project management;
- Work with other professionals in project teams;
- Carry out analytical and design functions for projects at stages ranging from Scoping to Detailed Engineering and construction;
- Manage projects according to client-approved scopes of work;
- Prepare and deliver high quality reports on time and within budget.

Qualifications

The successful candidate will possess the following skills and attributes:

- Bachelor's degree in Civil Engineering, with Graduate Degree (MSc., M. Eng, Ph.D) preferred but not required;
- Five to seven years experience in geotechnical/mining consulting;
- Experience in problem solving with industry standard commercial computer software including AutoCAD, Rocscience, MS Office, Soil Vision, tailings deposition planning tools and/or mining software such as Surpac and Vulcan;
- Willingness to travel as directed by project requirements;
- Proven capabilities in planning and supervising geotechnical subsurface explorations and in writing geotechnical reports and technical communications;
- Proven capabilities working productively in project teams;

- Registration or Eligibility to register as a Professional Engineer in the Province of British Columbia.
-

Interested applicants are encouraged to apply on-line at www.golder.com in the Career/Canada section. No phone calls please, only those candidates whose background closely matches the opportunity will be contacted for an interview.
