

Rio Tinto

Primary Location: Labrador City

Schedule Full-time

Deadline date: 1/8/2012

Senior Geologist - Mine technical services - LAB000SW

Rio Tinto is a leading international mining group headquartered in the UK, combining Rio Tinto plc, a London listed company, and Rio Tinto Limited, which is listed on the Australian Securities Exchange. Rio Tinto's business is finding, mining, and processing mineral resources. Major products are aluminum, copper, diamonds, energy (coal and uranium), gold, industrial minerals (borax, titanium dioxide, salt, talc) and iron ore. Activities span the world but are strongly represented in Australia and North America with significant businesses in South America, Asia, Europe and southern Africa.

IOC is a leading Canadian producer of iron ore concentrate and iron ore pellets serving customers worldwide. The Company operates a mine, concentrator and a pelletizing plant in Labrador City, Newfoundland and Labrador, as well as port facilities located in Sept-Îles, in the Province of Quebec. It also operates a 418-kilometer railroad that links the mine to the port. IOC has 2200 employees and its major shareholder and operator is the international mining group Rio Tinto, which has activities in more than 40 countries throughout the world.

The Senior mining geologist will be accountable for, but not limited to the following:

- Provide effective leadership to the Mine Geology team by setting clear expectations, providing feedbacks, coaching and development and establishing an effective team process.
- Support achievements of budget ore quality targets through improved ore quality management.
- Review and update ore quality data for short, medium and long term mine plans.
- Monitor and reconcile quality performance.
- Generate annual year-end reserves and resources reports in accordance with standards.
- Complete Approval for Expenditure (AFE) for planned projects.
- Manage projects for contractor drilling activities to update ore body models.
- Participate in annual budget planning process.

Qualifications:

- B. Sc. Geology or similar discipline
- Minimum of 5 years geological, exploration or mining experience
- Professional registration as a P. Geo or P.Eng
- Proficiency with GIS mapping, mine planning and ore body modeling software
- Valid driver's license
