

Levelton Consultants Ltd. is an established and highly respected medium-sized firm of about 180 multi-disciplined consulting engineers and scientists, and a leading provider of engineering offered nationally and internationally to resource industries, utilities, government and design consultants (for further information on Levelton Consultants Ltd., please visit our website at www.levelton.com).

To continue planned growth and to meet an extremely busy workload, there is an immediate need for an energetic and business-minded individual in our Building Science Division located in our Richmond Office in the following position:

Intermediate Building Envelope Engineer – Richmond

Levelton Consultants Ltd. seeks an experienced Building Envelope Engineer to function at an intermediate or senior level in our Building Science Division in our Richmond Office. The Building Science Division provides services in the area of building envelope assessments, design reviews, contract documentation, field implementation, litigation support and research and development. The work will encompass the remediation of existing buildings, as well as the design of new construction, including the design and remediation of building envelope and roofing systems for all types of structures, including multi-residential high-rise and wood-frame, commercial, institutional and heritage structures. Levelton also participates in applied research related to various aspects of building envelope performance, and, depending on the qualifications and interests of the candidate, this position may incorporate a research component.

Ideal candidates must be Professional Engineers registered, or eligible for registration, in British Columbia, and have at least five years of experience with a background in building science and the construction industry. Proven ability and experience in project management or contract administration of new or remediation construction projects would be an important asset. Some travel is required.

We offer a competitive compensation package, challenging projects and the opportunity to develop a solid and rewarding career. If you meet these qualifications and would like to join our dynamic team, please forward your resume by October 1, 2010, with the position title and location in the subject line, to: hr@levelton.com or fax 604-278-1042, attention Manager, Human Resources.

All applications will be held in strict confidence. We thank all applicants for their interest; however, only those selected for an interview will be contacted. Qualified applicants may be contacted prior to closing date. No telephone enquiries, please.
