

Intermediate/Senior Engineers

Calgary

Kinder Morgan Canada Inc. has created an environment where original thinking and the broad application of experience are encouraged. We seek candidates who wish to expand their horizons, while sharing our commitment to pipeline safety, environmental responsibility and organizational excellence. We are poised for a future dominated by expansion, activity and excitement.

Opportunities exist for Intermediate/Senior Engineers in both our Operations Engineering and Integrity Programs & Risk Engineering groups. Specific responsibilities will vary depending on the exact position you are best suited for. As part of the Operations Engineering group, you'll manage the stress corrosion cracking program and welding program, as well as other materials-related duties. As part of the Integrity Programs & Risk Engineering group, you'll lead ongoing development and implementation of the pipeline and facilities risk assessment programs; perform data integration/analysis as part of the in-line inspection program as well as other integrity-related duties. Your strong understanding of pipeline systems will help make you an ideal candidate as you assume an integral role in the daily operations, maintenance and integrity of our pipeline system. You'll be expected to take a lead role when required and will offer your expertise in the completion of engineering assessments and development of standards, procedures and training programs related to our facility and pipeline integrity.

Your engineering degree is complemented with a minimum of five to 10 years of related experience. You are registered or eligible for registration with APEGGA..

Interested applicants are invited to view the details and apply online at: **www.kindermorgan.com** to: **Operations Engineering Job # 4177** and **Integrity Programs & Risk Job # 4138**, or submit their resume to: Human Resources, Kinder Morgan Canada, 2700, 300 – 5th Ave. SW, Calgary Alberta, T2P 5J2.
