

Whitehorse Branch Manager - Yukon

Opus DaytonKnight Consultants Ltd is a multidisciplinary engineering consulting firm specializing in providing specialized engineering consulting services to municipal clients. We work with our clients to create sustainable communities through the development and management of world class infrastructure.

We are currently seeking a professional Branch Manager to lead and expand our office in Whitehorse, Yukon. We are presently involved in six projects in the Whitehorse area.

Opus DaytonKnight offers the opportunity to:

- Bring innovative solutions to a wide range of interesting projects including water and wastewater facilities;
- Work with a friendly, vibrant team around the country that highly values top quality people;
- Access a local and global network of technical knowledge and support; and
- Learn new skills as part of a staff development program focused on enabling you to reach your full potential.

The successful applicant will have proven project management skills and will participate in the preparation of designs, reports, studies and contract documents associated with various large and small municipal engineering projects.

The ideal candidate

- Has 5-10 years experience in leading a business engaged in water and wastewater infrastructure. Experience in municipal engineering and asset management would also be an advantage;
- Has strong people skills and an affinity with Opus' Company values;
- Has a proven ability to lead, manage and develop a high performing consulting business, implementing a strategy for growth and diversification; and
- Has proven experience in the delivery of solutions for Municipal, Territorial and Federal agencies, and private sector clients.

A competitive compensation package together with opportunities for career growth and advancement are offered.

If you believe this opportunity would fit your future please apply online by clicking 'Apply Now' on the job opportunity page on our website.
