

SNC-Lavalin provides cutting-edge engineering, procurement, construction and financing solutions to projects in more than 100 countries around the world. From the Canadian Arctic to the Southern African region, our multicultural workforce is driven by a fierce pride in their work and a pioneering vision.

As our revenues reach record highs, and our projects bring home some of the most prestigious prizes in the world, there has never been a better time to join our team. Now more than ever, SNC-Lavalin is truly a global leader in its field.

Our Design Build Group in the Transportation Division is looking for qualified Senior Project Managers to join our growing team:

### Senior Project Managers

SNC-Lavalin is looking for seasoned construction project managers. Experience in Design-Build and P3 projects preferred. Must have a minimum of 15 years experience and have been the main person in charge of projects in excess of \$100 million. Professional Engineers preferred but not a requirement. Experience in all aspects of Heavy Civil projects (Roads, Bridges, and Mass Transit) preferred. PM must have strong skills in project controls and a strong background in safety management and ISO quality management programs. Candidates must have a solid track record of finishing projects safely, on time, and on budget. Candidates must also have excellent leadership skills and be able to work with minimal guidance.

Your assignment will start with either management or support of a major Design-Build or P3 bid and will develop into a leadership position once the project is awarded. Our projects vary between \$100 million to several billion. Experience must be commensurate with this scale of project. Persons applying must be willing to relocate to project locations (primarily Canada and the United States, other locations may be available).

SNC-Lavalin is one of the world's largest engineering and construction companies. Our Transportation Division is responsible for the development and execution of large transportation infrastructure projects valued at several billion.

We offer an opportunity to work on some of the largest projects in North America. You will work in an environment that will give you an opportunity to excel and advance in your career. Salary commensurate with your experience.

While we sincerely thank all applicants, only those selected for an interview will be contacted.

No telephone calls please and no agencies please.
