

2010 APEG–MAPS Post Secondary Undergraduate Scholarship

The APEG-MAPS Scholarship Awards have been developed to reward undergraduate student members whose volunteer, employment, or personal actions over the past year have enhanced the image of the engineering or geoscience professions.

The Association must receive applications, with Resume attached, no later than **October 29, 2010**. Applicants should contact the Association prior to the deadline to verify receipt of their application. Please ensure that you have completed all questions, as incomplete applications will not be considered. Only undergraduate students attending BC Post Secondary Institution who are registered as APEG-MAPS members are eligible to receive these scholarships.

Scholarship Criteria

Scholarships will be awarded based on a combination of factors. Applications are evaluated on the basis of the student's current resume, a student statement, and how students have involved themselves with the engineering or geoscience profession in the previous years. The latter may be through exemplifying the character traits of a professional or participating in an effort to further advance public knowledge of the profession. Students will be eligible for the awards according to the year level of their last academic term completed. Students must have been full-time students in the qualifying year.

APEG-MAPS Scholarship Application

Section A

Full Name: _____ MAPS ID Number: _____

Mailing Address: _____

Telephone Number: () _____ Email: _____

University: _____ Last Academic Term Completed: _____

Program of Study: Engineering Geoscience

Section B

Please use additional paper where necessary. It is unlikely that you will be able to answer these questions sufficiently in the space provided. Please answer all questions with as much detail as possible. The evaluation committee will deem whether the information is pertinent.

1. How does the Association of Professional Engineers and Geoscientists benefit the professions of engineering and geoscience? (150 words or less)

2. Please explain in your own words why you decided to study engineering or geoscience, and what impact engineering or geoscience has on society. (300 words)

3. Please describe how you have exemplified the character traits of a professional over the past years. Examples of professional characteristic traits include honesty, fairness, and responsibility. Other ways of supporting the profession would include; volunteering, extra-curricular learning, and active involvement within the industry.

4. Please describe efforts that you have made to advance the public knowledge of the professions over previous years. This could include activities such as encouraging others to pursue careers in engineering or geoscience, working on a publication which educates readers on engineering or geoscience, organizing extra-curricular activities within the profession, participating in a professional student organization, and encouraging others to participate in said activities.

5. Please include the names and telephone numbers of two people who can act as a reference for you.

Name: _____	Name: _____
Phone Number: _____	Phone Number: _____
Position: _____	Position: _____

The MAPS scholarship will be evaluated using the following criteria:

- Student Statement (25%)
- Professional Characteristics (25%)
- Knowledge Advancement (25%)
- Student Resume (15%)
- Judge's Evaluation (10%)

Please ensure that you have included:

- Scholarship Application
- References
- Current Resume

Please return completed application by email, fax or mail to:

The Association of Professional Engineers and Geoscientists of British Columbia
